JUDY HORNIGOLD WORKSHOPS 2017

Making Maths Visual and Tactile

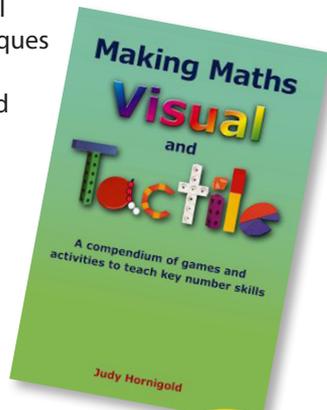

A compendium of games and activities to teach key number skills

Judy Hornigold

Judy Hornigold draws on her teaching and training experience to set out over 50 games and activities that can help build confidence in the all important early numeracy skills. Judy provides detailed strategies for teaching numeracy skills through a progression of practical activities and visualisation techniques which build the self-esteem of students who need extra help and give them a basic foundation in number.

Topics covered include:

- Dice and dot pattern games
- Five and ten frames
- Playing with playing cards
- Base ten materials
- Using Cuisenaire rods, numicon, pattern blocks and virtual manipulatives

\$33.50

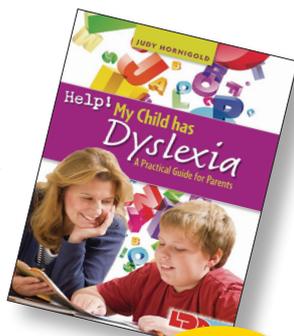

Help! My Child Has Dyslexia

A Practical Guide for Parents

Judy Hornigold

As an experienced teacher and the mother of a dyslexic child, Judy Hornigold has written the book that she wishes had been available when her own son was diagnosed. She writes with knowledge and understanding, both of the challenges of dyslexia and of the way in which parents can help to support their child.

Judy explains how to identify and understand your child's specific difficulties, suggests easy games and activities that are fun to do at home which will improve reading, writing, maths and memory skills. Includes photocopiable templates and useful word lists to support the games whilst offering ideas on learning basic rules of spelling.

\$29.95

Making Maths Visual and Tactile TOOLKIT

A collection of maths manipulatives for playing the games in Judy Hornigold's book - Making Maths Visual & Tactile.

This kit is a collection of the key maths manipulatives for playing the maths games in Judy's book.

Recent publications from Steve Chinn

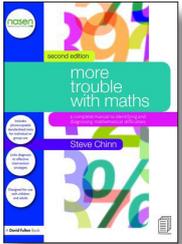

NEW!

Mathematics for Dyslexics and Dyscalculics, 4ed A Teaching Handbook

\$73.95

Steve Chinn, Richard Ashcroft

A seminal handbook in the field for more than 20 years, this new & updated edition contains the latest research and best practices for helping learners with numerical & mathematical difficulties. The book offers effective teaching strategies for learners of all ages in a structured but accessible format - much of it in specialist settings for students with specific learning difficulties.

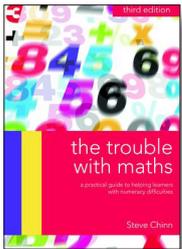

More Trouble with Maths A Complete Manual to Identifying and Diagnosing Mathematical Difficulties

\$105.00

Steve Chinn

Central to this new edition is a range of standardised tests and diagnostic activities, including a 15 minute test of basic mathematics, a thinking style test, tests of basic fact retrieval and maths anxiety. Guiding the reader in the interpretation of tests, it shows how identifying the barriers to learning is the first step in a programme of intervention. Emphasising the need for a clinical approach when assessing individuals, this book shows how diagnosis and assessment can become integrated into everyday teaching.

The Trouble with Maths A Practical Guide to Helping Learners with Numeracy Difficulties, 2nd Edition

\$70.99

Steve Chinn

This award winning book offers advice, guidance, practical activities and important insights into the often confusing world of numeracy.

What to do when you can't do maths Set

\$139.75

Steve Chinn

This set of five highly accessible books is written for parents, older pupils, students and adults and offer a non-patronising, consistent and developing pathway through basic arithmetic.

Each book is also available individually at \$29.95.

Author Steve Chinn is one of the foremost authorities on dyscalculia with 24 years experience as Head of three schools for dyslexic pupils, plus many years experience teaching in mainstream schools.

Silvereye provides educators, counsellors, other professionals and parents with practical, theoretically sound & affordable resources to positively impact the education of children and youth; particularly those with special needs and students at risk of school failure. We provide books, games, cards, DVDs, assessment materials and other resources to assist with: learning difficulties, special education, reading & writing language & communication, behaviour, social development, guidance and counselling.
